
SaskTel Wireless Data Service Plans Terms and Conditions

F

Description

SaskTel Wireless Data Service Plans (the “Service”) allow Customers to use services such as e-mail, internet, streaming services and messaging.

F

Terms and Conditions Applicable to all Wireless Data Service Plans

1. No termination fees apply if the Service is cancelled within 30 days of the activation date (i.e. the date the Customer’s wireless device is operational and capable of using the Service) or the starting date of the contracted term for the Service (this only applies if the Customer is switching from a monthly plan because the Customer’s wireless device will already be capable of using the Service). If the Customer cancels the Service within 30 days of the activation date, the Customer is still responsible for charges associated with network access, features, airtime and long distance for the time period in which the Service was active.
2. All devices on a wireless data plan are automatically activated on the Pay-per-use Voice Rate Plan. Customers may instead substitute any other current voice rate plan.
 - **Exception:** A postpaid voice plan is required with those SaskTel data plan offerings that are stipulated by SaskTel from time to time.
3. The contract terms for data and voice plans must always be of equal length with the same end date.
 - **Exception 1:** The Pay-per-use Voice Rate Plan has a month to month contract term only. Customers may sign up for a data plan with a fixed length contract term in conjunction with the Pay-per-use Voice Rate Plan.
 - **Exception 2:** Customers with an existing voice contract may add a temporary data plan to their device.
4. Customers with a wireless data device who are on a discontinued wireless data plan **MUST** switch to a current wireless data plan when they are:
 - a) renewing their contract; or

SaskTel Wireless Data Service Plans Terms and Conditions – *Continued***Terms and Conditions Applicable to all Wireless Data Service Plans** – *Continued*4. - *Continued*

- b) switching to a new or different device (i.e. ESN change), even if it's the same make and model.

Exception: If the Customer is changing their device due to repair, (i.e. either a temporary swap or a permanent swap to a refurbished device) the Customer does not have to switch to a current wireless data plan as long as the new device is the same make and model as the old device.

- 5. If a wireless data Customer has an existing voice contract but wants to switch to the Pay-per-use Voice Rate Plan, termination charges would apply (to the existing voice contract).
- 6. Customers who add a temporary data plan to their existing voice plan are not eligible for an additional device subsidy.
- 7. SaskTel may at anytime make changes to or eliminate data plans that are offered on a month to month basis with no fixed term contract commitment. Customers will be notified prior to any changes being made to a data plan that is offered on a month to month basis and will be notified prior to the termination of any data plan that SaskTel offers on a month to month basis. In either of such circumstances, the Customer will be given the opportunity to change to an alternate data plan offered by SaskTel of the Customer's choice.
- 8. Charges for long distance, roaming, additional service features and applicable taxes are not included in SaskTel wireless plan pricing.
- 9. SaskTel's approved use policy applies to wireless devices used in conjunction with the Service. Please see Section 2 of the SaskTel Wireless Service Terms of Service (pages 538-548 of SaskTel's Non-Tariffed Product and Services Schedule) and SaskTel's Wireless Fair Use Policy Non-Tariff (pages 619-620).
- 10. If, as determined by SaskTel, a Customer with a data usage limit as a component of the Customer's chosen wireless data plan, exceeds their predefined usage limit, the Customer will incur overage charges of \$0.03/MB (if on a **BlackBerry**, Smartphone or Mobile Internet plan) or \$0.05/MB (if on a Mobile Tablet plan or SaskTel Data Plan for iPad) for the remainder of the affected billing period.

Exception: Customers on SaskTel Data Plans for iPad will incur overage charges of \$0.05/MB for the remainder of the affected billing period to a maximum overage charge of \$30 per billing period.
